Seed Farms in Pennsylvania, New Jersey, and California

TERMS OF SALE.

PHILADELPHIA, January 25, 1918.

Prices and Conditions of Sale—All invoices for purchases after this date will be charged at the prices quoted herein,—unless **special offers** are made by letter or telegram and **referred** to in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

The Prices Quoted are those ruling at this date. We expect to adhere to them through the spring, except where important changes compel us to advance or reduce our prices, when we shall be governed by the market. Ten pounds and more will be supplied at the rates per hundred pounds; half pound at pound rates; but smaller quantities will be charged at a higher rate.

No Charge for Packing or Cartage.—Bags and boxes are charged at Cost. After delivering to forwarders in good order (as shown by Bill of Lading) our responsibility ceases.

Insurance will be effected only when so directed.

Sealed Packages.—We make no charge for sealing pounds, but at the low bulk prices quoted, we shall charge for putting up in smaller sealed packages, when so ordered, as follows:

In Ounces,—One cent per ounce, 50 cts. per 100 ounces.

In Quarter-Pounds,—Two cents for each package.

We do not Commission Seeds.—In response to hundreds of inquiries each year, we would state that we positively decline to send out any Seeds on Commission. Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

Credit—To regular customers and well-known houses of established credit. The limit of time for payment of invoices for purchases from this Catalog is 60 days. All customers whose remittances have not been received 90 days after the dates of invoices will be drawn upon with sight drafts unless credit arrangements were made by agreement.

Discount—**Grass and Clover Seeds, Onion Sets and Seed Potatoes.** Net Cash. All other purchases 2% within 10 days from date of invoice.

Discounts TO THE TRADE From our Retail Prices.

In our Retail Catalog—**BURPEE'S NEW ANNUAL FOR 1918**—are many varieties of seed in packets for which frequently other dealers receive retail orders. We supply

All Seeds in Packets at - - 50 Per Cent. Discount
500 packets or more at - - 60 Per Cent. Discount
Vegetable Seeds by the Ounce, 40 Per Cent. Discount

Excepting the new Early-Flowering Spencer Sweet Pea Novelties.

For prices on Gem and Nasturtium, also Sweet Pea Collections,—see pages 62 and 63.

At the above liberal rates of discount the goods travel at expense of purchaser, and when sent by parcel post the cost of postage will be added to the invoice.

The Burpee-Quality in Seeds

United States Food Administration License No. G-20025

PHILADELPHIA, January 25, 1918.

TO OUR WHOLESALE CUSTOMERS:

Ordinarily a catalog or price-list is circulated to create orders for the goods offered and in normal years this applies also to the seed trade; but owing to conditions caused by the war (especially the lack of field labor) we suggest that you order more carefully than ever before.

If we are to avoid a famine in certain lines of seed all interested must conserve stocks and persuade the planter to make every seed count.

We have seeds for sale and while prices are ruling higher than a year ago in many cases the margin between cost of production and the selling price is less.

As heretofore we are prepared to give your orders prompt and careful attention but respectfully request that you exercise care not to over-order.

Trusting to be favored with your orders, we are

Faithfully yours,

Burpee Buildings:

North Fifth Street,
York Avenue and
Buttonwood Street,
Philadelphia.

A large, stylized handwritten signature in dark ink, reading "W. L. Burpee". The signature is written in a cursive style with a large, looping "W" and a decorative flourish at the end.

Seed Gardens and Trial Grounds at our famous FORDHOOK FARMS, Bucks County, Pa., SUNNYBROOK FARM, New Jersey, and Burpee's FLORADALE FARM in California.

BURPEE, Philadelphia,

Is Our Registered Cable Address.

All foreign customers are requested to advise us of their **shortest cable address**. Customers in America who wish to telegraph will also find the following additional code useful.  Please note the **code-words** below that would be used in our **reply**, either by cable or telegram. For other sentences, use the **5th Edition of A. B. C. Code**.

FOR OFFERS AND INQUIRIES.

CODE-WORD.	TRANSLATION.
<i>Daubling</i>	Telegraph your lowest prices for
<i>Dean</i>	Mail your lowest prices for
<i>Decoy</i>	Mail your lowest prices for, and send samples.
<i>Defend</i>	Telegraph when goods can be shipped.
<i>Defender</i>	Advise immediately by mail how soon goods will be shipped.
<i>Deform</i>	Can you offer for acceptance by mail ?
<i>Deject</i>	Can you offer any ? If so, telegraph prices.
<i>Delude</i>	Can you offer any ? If so, mail prices.
<i>Derange</i>	Telegraph quantities you can offer of following, with prices.
<i>Descend</i>	State by letter quantities you can offer of following, with prices.
<i>Descry</i>	When can you ship.....?
<i>Deserve</i>	Please reply by telegraph.
<i>Desiccate</i>	Please reply by letter.

Code-words that will be used in OUR ANSWERS.

<i>Dab</i>	In reply to your telegram (letter), we quote for immediate acceptance.
<i>Dabler</i>	Letter written contains full information.
<i>Dacite</i>	We accept your order for
<i>Dagger</i>	We accept your order for, and shall ship at once.
<i>Dairy</i>	We accept your order for, and shall ship as directed.
<i>Damsel</i>	We offer you for immediate acceptance, subject to being unsold.
<i>Dance</i>	We accept your offer and shall ship as directed.
<i>Dancing</i>	Will make you shipment
<i>Dangling</i>	Accept order for all but
<i>Daphnal</i>	Can only offer
<i>Dapifer</i>	We accept order, but can now only supply
<i>Dapper</i>	Cannot accept your order for
<i>Dapple</i>	{ Part of your order went forward by freight on expect to ship balance
<i>Dapperling</i>	Can accept your order for only
<i>Dapster</i>	We are now sold out of
<i>Darby</i>	{ Part of your order went forward by express on expect to ship balance
<i>Dardanus</i>	Please repeat your message, it is not clear.
<i>Dard</i>	Cannot now supply but offer as a good substitute

Code for positive ORDERS.

<i>Dare</i>	Send immediately the following by <i>freight</i> , per special quotations.
<i>Dargie</i>	Send immediately by <i>express</i> following seeds at catalog prices.
<i>Darken</i>	Send immediately by <i>freight</i> following seeds at catalog prices.
<i>Darnel</i>	Send immediately by <i>mail</i> following seeds at catalog prices.
<i>Dared</i>	Send immediately by <i>express</i> the following, per special quotations.
<i>Darling</i>	Send immediately by <i>mail</i> the following, per special quotations.
<i>Dasher</i>	Send at once; let other seeds follow as quickly as possible.
<i>Dashing</i>	{ Have you shipped our order? If not, increase if possible our order forto.....pounds.
<i>Datary</i>	Send.....immediately by express. Balance of order by freight.
<i>Dation</i>	Duplicate our last order.
<i>Datisca</i>	Book our order and await instructions by mail.
<i>Daturein</i>	Please add to our order.

Telegraphic Cipher (or Cable Code)

FOR WEIGHTS AND MEASURES.

The telegraphic cipher word for quantities must always precede the cipher words for seed, but if the same quantity of several varieties is ordered, the cipher word meaning that quantity need be placed only before the first. For example:

Arad Jaundice, Jean, Benares, Calliope, Lamprey, Cefalu Balcony, would mean, ship at once, cheapest route, ten pounds each HELEN PIERCE and JANET SCOTT SWEET PEAS, twenty-five pounds each BURPEE'S ALLHEAD EARLY CABBAGE and BURPEE'S EARLIEST WAY-AHEAD LETTUCE and one hundred pounds BURPEE'S STRINGLESS GREEN-POD BEAN.

Our customers will find this a very inexpensive way of wiring their orders, but we must caution them that care be taken in writing out the messages, as we cannot hold ourselves responsible for errors arising from incomplete messages or incorrect translation.

IMPORTANT.—This telegraphic cipher must be used **ONLY** on orders by telegraph or cable, and never in written orders sent by mail.

WHAT IS A BUSHEL?

Progress is the watchword of the age, and strange as it may seem, the East has not yet caught up to the West in progressive ideas as to measure values. Most planters are aware of the confusing laws in the different eastern States as to what constitutes a bushel. In the West everything in the eatable line is sold by the pound (lemons, oranges, and bananas excepted), and according to the way all produce is handled, the only correct method should be by the piece or pound.

A change to the cental (100 pounds) system means that we price beans on a basis of about one pound to the pint, 2 pounds to the quart, and considering 60 pounds as the accepted weight per bushel (although lima beans vary from 54 to 57 pounds per measured

bushel), it seems as if the correct method is offering such seed by the packet, pound, 10 pounds, and 100 pounds.

Sweet corn varies in weight from 45 pounds to 50 pounds (32 quarts to the bushel), and in this instance the planter may safely, for his purposes, consider a quart weighs $1\frac{1}{2}$ pounds.

Peas per measured bushel vary from 56 pounds for wrinkled varieties to 60 pounds for smooth or round-seeded varieties; therefore we suggest that these be treated like beans, the planter purchase at the rate of one pound for a pint and two pounds for a quart, should we adopt this cental (100 pounds) system.

This is reprinted from our BLUE LIST for 1917, and we request you to refer to page 5 for figures giving in detail price equivalents.

TELEGRAPHIC CIPHER FOR PRICES.

The cipher or code-words given on this page are principally for our use in making quotations. For example :

Dab Cefalu Carding Defix, Lagria Bacon Division, would mean : In reply to your telegram, we quote for immediate acceptance, provided unsold upon receipt of your order, one hundred pounds **BURPEE'S SUREHEAD CABBAGE** at \$3.00 per pound, five thousand pounds **EXTRA EARLY RED VALENTINE BEAN** at \$22.50 per hundred pounds. These code-words can be used also if, when placing a telegraphic order, you wish to specify price quoted. For example :

Dare Angola Perturb Desk Hoogly Bib Dizzy, meaning : Ship at once by freight, as per special quotations, five pounds **RUBY KING PEPPER** at \$5.00 per pound, nine hundred pounds **BURPEE'S BUSH LIMA BEAN** at \$30.00 per hundred pounds.

 By exercising ordinary care in preparing the telegram you can save time and money by the use of our code system. When possible, telegraphic orders are filled and shipped the same day they are received.

For Code-words for Quantities, Orders, etc., see pages 2 and 3.

All Seeds Now Sold by the Hundred Pounds.

After careful consideration and planning we decided to adopt the Cental System and abandon the rather obsolete method of selling certain varieties of seed by the bushel.

We print below a table giving the bushel equivalent which has been figured on a basis of 45 pounds to the bushel of Sweet Corn. Wrinkled Peas and Field Corn average 56 pounds, while Beans and Smooth Peas weigh 60 pounds per bushel.

Per 100 lbs.	Per 45 lb. bush.	Per 56 lb. bush.	Per 60 lb. bush.	Per 100 lbs.	Per 45 lb. bush.	Per 56 lb. bush.	Per 60 lb. bush.	Per 100 lbs.	Per 45 lb. bush.	Per 56 lb. bush.	Per 60 lb. bush.	Per 100 lbs.	Per 45 lb. bush.	Per 56 lb. bush.	Per 60 lb. bush.

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

 This Price List Cancels all Previous Quotations. 

 A **Telegraphic Cipher** (or **Cable Code**) is attached to each variety, by which orders can be wired at little expense,—using also our code for prices, weights, and measures as given on pages 2, 3, and 4. For example:

Darken Japura Balcony would mean: Send immediately, by fast freight, two thousand pounds BURPEE'S STRINGLESS GREEN-POD BEAN at catalog price.

Dared Breda Cage would mean: Send immediately, by express, fifty pounds of best select JERSEY WAKEFIELD CABBAGE as per special quotation.

Darnel Amoy Lantern would mean: Send immediately, by mail, three pounds of seed of BIG BOSTON LETTUCE.

 Please use telegraph cipher only for telegraphic or cable orders.

Telegrams should be addressed,

W. ATLEE BURPEE & CO., Philadelphia.

Our Cable Address is: **BURPEE, Philadelphia.**

Cabbage is more extensively grown in large areas for market than any other vegetable excepting the Potato. All growers recognize the importance of planting only the finest seed. We exercise the greatest care in growing and in selecting our Cabbage Seed. Not only are the plants grown from the best stock, but they are also inspected carefully before being put away for the winter.

The Value of a Guarantee is not in what is said, but who says it.

For more than forty years we have stated plainly that, where failure is caused by any fault of the seed, we would refund the full price paid. This should convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the great care exercised in their growing, cleaning, and packing. No honest seedsman could assume responsibility for more than the price actually paid by the purchaser.

BURPEE'S SEEDS GROW and are famous
for the Uniform Excellence of their Products

WHITE PLUME (<i>finest strain</i>).....	<i>Chopper</i>	2 50	240 00
Easy Blanching.....	<i>Chord</i>	10 00	

Golden Self-Blanching Celery.

This variety, first introduced in America by us in 1884, is decidedly better in quality than the *White Plume*. It is ready for use nearly as early, blanches as easily, and is larger in size as well as finer in quality. It is of dwarf compact habit, with thick, solid, heavily ribbed stalks which blanch easily to a clear waxen yellow. The stalks are crisp and solid, free from stringiness and of delicious flavor.

GIANT PASCAL CELERY.

CELERY,—Long-Keeping Winter Varieties.

in Burpee's
Quality is the First Consideration Seeds. The best quality it is possible to produce—that is the rule with all Burpee's Seeds. While our prices must be higher than those of some other houses, yet the quality of the seeds in every case warrants the prices charged. We aim always to excel in quality rather than to compete in price.

The Value of a Guarantee is not in what is said, but who says it.

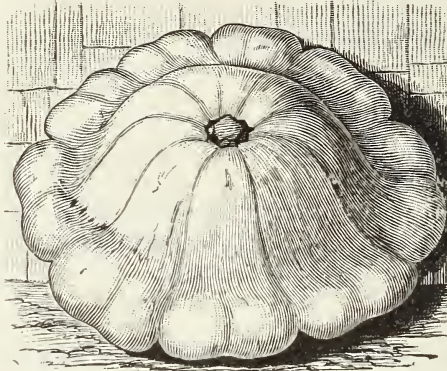

For more than forty years we have stated plainly that, where failure is caused by any fault of the seed, we would refund the full price paid. This should convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the great care exercised in their growing, cleaning, and packing. No honest seedsman could assume responsibility for more than the price actually paid by the purchaser.

Burpee's Flower Seeds

are just as carefully and as thoroughly tested as our **Vegetable Seeds**, and we know that there is not offered seed of any better quality than stocks we now have in our warehouse.

If you have never carried flower seeds in stock, there is no better way to try the taste of your customers than by offering the special Sweet Pea, Nasturtium, and Gem Collections, offered on pages 63 and 64.

Our **Flower Seed Box**, offered on page 61, gives a very convenient way of handling the separate packages at a very slight cost.

“Proved by Test.” Unless you should order some variety that we do not catalog and instruct that we get it for you (when we shall send it at your risk,—in its original package), you may be absolutely sure that you will receive from us only such stocks of strictly high-grade seeds as have been proved absolutely **“Best by Test.”**

Many seedsmen have much to say about tested seeds, but unfortunately with most dealers this applies only to blotter tests for vitality. Our tests for vitality are *soil* tests. While necessary that *seeds grow*, it is of prime importance that they shall be of choicest selected strains, such as can be relied upon to produce products **“true to type.”** This can be learned only by thorough field trials. No other seedsmen in America make so many or such complete trials as are conducted annually at our famous FORDHOOK, FLORADALE, and SUNNYBROOK FARMS.

Burpee's Sweet Peas

New Early-Flowering Spencers for 1918

With a keen appreciation of the splendid future of the Sweet Pea, and particularly of the New Early Winter-Flowering or Long Season Spencers, we began crossing the Spencer Sweet Peas with the Burpee Early or Winter-Flowering Grandifloras as far back as the summer of 1909. Later, we have been using that magnificent Australian variety, "Yarrowa," to a great extent in our crosses.

We now offer with the greatest confidence the following splendid novelties. These are all true, thoroughly fixed in type, and are a great improvement on the various colors.

From sowings made under glass in August, they may be flowered in time for Thanksgiving. September sowings will produce the finest of flowers by Christmas. If grown in the open, they flower several weeks ahead of the Standard or Summer-Flowering Spencers, and, with proper treatment, continue to bloom quite as long as that type.

Nine of these varieties were awarded nineteen Certificates of Merit by the following: PENNSYLVANIA HORTICULTURAL SOCIETY, Philadelphia; AMERICAN SWEET PEA SOCIETY, San Francisco; THE INTERNATIONAL SHOW, New York.

Burpee's Early Snowstorm

We consider this truly magnificent pure white variety to be the best of the white-seeded Early-flowering Spencers yet introduced. The flowers of are great size and substance, beautifully waved, and are borne in great profusion. The stems are long, usually carrying three or four flowers which are well placed.

Snowstorm is an appropriate name, as the plants become a perfect mass of snow-white flowers, coming to bloom very early and continuing through a long season. The seed of this variety is still very scarce and we are able to offer in packets only.

Pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts.; 500 pkts. or more \$12.50 per 100 pkts.

Burpee's Early Lavender King

A first-class lavender has been much wanted in this type, therefore we have great pleasure in offering the new Lavender King. This glorious new variety is a rich, true, deep lavender throughout. Similar in color to the summer-flowering varieties Burpee's Orchid and R. F. Felton. The flowers are of large size, beautiful true waved form, and borne in threes and fours on stems of great length. Certain to become a favorite with the market grower.

Awarded Certificates of Merit at THE INTERNATIONAL SHOW, New York, March 20, 1915; THE PENNSYLVANIA HORTICULTURAL SOCIETY, March 23, 1915. Pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts.; 500 pkts. or more \$12.50 per 100 pkts.

Burpee's Early Sweet Briar

A most distinct and charming variety. The flowers are of good size, with great substance and usually borne in threes and fours. Color a lovely shade of pink throughout but with a soft salmon or amber suffusion, this being more accentuated in the younger flowers and buds. Similar in color to the summer flowering Elfrida Pearson.

A very strong grower and most floriferous. We anticipate Sweet Briar will become one of the most popular of this splendid type. Awarded Certificate of Merit by the PENNSYLVANIA HORTICULTURAL SOCIETY, March 23, 1915. Pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts.; 500 pkts. or more \$12.50 per 100 pkts.

Growing Early or Winter Flowering Sweet Peas in the Open.

The winter flowering varieties offered, in addition to their usefulness for growing under glass, will be found of great value for outdoor culture. In fact, in localities where on account of extreme heat the summer flowering Sweet Peas did not succeed, or at best gave only a few flowers ere the vines died off, this new type can be grown to perfection.

We have received glowing letters in praise of the early flowering varieties from friends located in Florida and other warm sections, where, from seed sown in late September and early October, they have cut beautiful Sweet Peas for Christmas, while the vines continued blooming until May or June.

The summer flowering or original varieties of Spencers sown at the same time will not flower until April. Therefore, we recommend with confidence using the early flowering varieties in all tropical or sub-tropical countries, our Southern States and other localities which are frostless—or almost so. A little frost will not permanently harm the Sweet Pea, although it would spoil the expanded and opening flowers.

Burpee's New Early- or Winter-Flowering Spencer Sweet Peas Additional Novelties for 1918

Burpee's Early Blue-Bird

This is a charming shade of blue. Somewhat similar to Wedgwood but more of a true self, especially as the flower ages. Distinct in color to any blue Sweet Pea we have heretofore seen. Whether grown under glass or when flowered in the open, it is always greatly admired. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Canary Bird

This is a splendid, rich, deep cream or primrose colored self. The flowers are of great size, beautifully waved, and usually borne three or four on a stem. The habit of the plant is vigorous, very free flowering, and we know of nothing in Sweet Peas better or richer in this color. Awarded certificate of merit by the PENNSYLVANIA HORTICULTURAL SOCIETY, March 23, 1915. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Daybreak

This is a lovely cream-pink self. The flowers are much frilled or waved, of largest size, borne freely in threes and fours on very long stiff stems. The color is a pleasing shade of rich rose-pink on cream ground, the color becoming deeper toward the edge of standard and wings. The entire flower is lightly suffused with salmon. Very similar in color to Margaret Atlee. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Empress

This is a magnificent flower of largest size. A most distinct and glorious shade of bright, deep rose-pink. A solid color throughout. The most intense shade of rose-pink we have seen. The immense flowers are freely produced in threes and fours on very long, strong stems. Extremely free flowering. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Exquisite

The ground color is a soft shade of primrose, the edge of the standard and wings being beautifully "picoteed" with deep rose-pink. A strong, robust grower, the large flowers are freely borne on long stiff stems usually in threes and fours. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Mauve Beauty

A novelty of great beauty. Color a pleasing shade of rosy mauve. The flowers are of immense size, often measuring two and one-half inches in diameter, yet exquisitely waved and of best Spencer form. A strong, vigorous grower and very free flowering. Charming under artificial light. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Princess

A first-class flower in every way. A vigorous grower, and most floriferous, the large flowers being freely produced in fours on long, stout stems. Color, a lovely shade of soft lavender suffused mauve. A color in great demand. The flowers are most attractively fluted or waved. Similar in color to *Asta Ohn*. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Zephyr

This is a delightful shade of pale blue or lavender. Similar in color to the old grandiflora *Mrs. Higginson*. It might be briefly described as a silvery blue self. The flowers are of good size, beautifully waved, and usually borne four on a stem. An extremely dainty and charming variety. Pkt. 25 cts.; \$13.75 per 100 pkts.

Burpee's Early Sunburst

One of the most attractive and pleasing novelties. The flowers are very large, often measuring fully two and one-quarter inches across, broad and well expanded. They are well shaped, charmingly waved and beautifully placed on the long strong stems. The color is a pleasing shade of rich pink, becoming lighter toward the base of standard and wings. The entire flower is suffused with soft amber and salmon, there being a distinct lemon blotch at the base of the standard.

Sunburst will surely become a first favorite with all growers. A color much in demand. Awarded Certificate of Merit at THE INTERNATIONAL SHOW, New York, March 20, 1915, and THE PENNSYLVANIA HORTICULTURAL SOCIETY, March 23, 1915, when exhibited under the name of *Early-flowering Mrs. Routzahn*. Pkt. 25 cts.; \$13.75 per 100 pkts.

"Fordhook" Collection of Early-Flowering Spencers for 50 Cts.

This collection of Early-flowering Spencers is made up of the best of this splendid new race of Spencers. One packet of each and our leaflet, "How to Grow Sweet Peas," mailed to your address for 50 cts.

Early King—Fordhook Pink and White—Early Enchantress—Early Fordhook Rose—Early Primrose Beauty—Early Sankey—Yarrowa.

Wholesale, 35 cts. each; \$32.50 per 100 collections.

Burpee's New Early or Winter-Flowering Spencer Sweet Peas

Novelties of 1916 and 1917

Burpee's Early Enchantress

The flowers are immense in size, measuring two and one-half inches in diameter; they are exquisitely waved or frilled, well placed on stiff stems, and usually produced in threes or fours. The color is most attractive and pleasing. It is a bright rose-pink, becoming deeper toward the edges of standard and wings, gradually softening in tone toward the center of the flower.

Awarded Certificate of Merit by THE AMERICAN SWEET PEA SOCIETY, San Francisco, June 9, 1916. Oz. \$1.00; lb. \$10.00.

Burpee's Early Loveliness

For dainty and delicate color effect, especially when bunched, this novelty stands head and shoulders above any variety we have seen. The color is white, the entire flower being suffused soft pink until it reaches the edges, which are distinctly piceoted with rose-pink. A flower of immense size and great substance, beautifully waved and usually produced three or four on the longest stout stems.

Awarded a Certificate of Merit by THE PENNSYLVANIA HORTICULTURAL SOCIETY at their SPRING SHOW, Philadelphia, March 23, 1916. Oz. \$1.00; lb. \$10.00.

Burpee's Early King In color similar to King Edward Spencer, having all the characteristics of that fine variety. A glowing, rich, bright crimson. The flowers are of great size, perfect form, averaging fully two inches in diameter, and are produced freely in threes and fours on strong stems of great length.

Awarded Certificate of Merit at THE INTERNATIONAL SHOW, New York, March 20, 1916; THE PENNSYLVANIA HORTICULTURAL SOCIETY, Philadelphia, March 23, 1916, when exhibited as Fordhook Crimson, also at the Annual Exhibition of THE AMERICAN SWEET PEA SOCIETY, San Francisco, June 9, 1916. Oz. \$1.00; lb. \$10.00.

Fordhook Pink and White

This is the most popular color in early-flowering Sweet Peas. It is similar to the old Blanche Ferry, having a bright rosy-pink standard with creamy white wings, lightly suffused rose. The immense flowers often measure fully two and one-half inches in diameter, while the form is perfect, the beautifully waved blooms being carried on stiff stems of great length, usually in threes and often fours.

It is an especially early, free, and continuous bloomer. The result of one of our 1909 crosses at our FORDHOOK FARMS.

Awarded Certificate of Merit at THE INTERNATIONAL SHOW, New York, March 20, 1915; SPRING SHOW of THE PENNSYLVANIA HORTICULTURAL SOCIETY, Philadelphia, March 23, 1915, and THE AMERICAN SWEET PEA SOCIETY, San Francisco, June 9, 1916. Oz. \$1.00; lb. \$10.00.

Fordhook Pink A distinct shade of pink suffused with lavender throughout. The flowers are of large size, exquisitely waved, and usually produced in threes and fours on long stems. Under artificial light it is particularly pleasing. It comes into flower early and is a most continuous and free bloomer. Lb. \$7.00.

Burpee's Early Pink Beauty

The color is soft rose-pink on white ground, richer toward the edges, gradually softening in color as it reaches the center of standard and wings.

The flowers are of great size, beautifully waved and finely placed on the immense stems, which usually carry three or four of the magnificent blooms.

Awarded Certificate of Merit at THE INTERNATIONAL SHOW, New York, March 20, 1915; the SPRING SHOW of THE PENNSYLVANIA HORTICULTURAL SOCIETY, March 23, 1915, and THE AMERICAN SWEET PEA SOCIETY, San Francisco, June 9, 1916, when exhibited as Fordhook Countess. Oz. \$1.25; lb. \$12.50.

Burpee's Primrose Beauty

An attractive and pleasing shade of deep primrose, flushed with rose. The flowers are of great size and splendid substance and beautifully waved in true Spencer form, usually produced in threes and often fours on stems of great length.

Awarded Certificate of Merit at the SPRING EXHIBITION of THE PENNSYLVANIA HORTICULTURAL SOCIETY, Philadelphia, March, 1915. Oz. \$1.25; lb. \$12.50.

Fordhook Rose This lovely variety is a charming shade of rosy carmine. The flowers are of largest size and usually borne in threes and fours on long stiff stems.

Awarded Certificate of Merit at THE INTERNATIONAL SHOW, New York, March 20, 1915, and at the SPRING SHOW of THE PENNSYLVANIA HORTICULTURAL SOCIETY, Philadelphia, March 23, 1915. Oz. \$1.00; lb. \$10.00.

Burpee's Rosy Morn A magnificent flower of great size and substance. Flowers grown under ordinary field culture have measured fully two inches in diameter. The color is a pleasing shade of rose with crimson-scarlet standard, while the immense flowers are usually borne in threes or fours on stiff, long stems. Lb. \$7.50.

Burpee's Early Sankey This truly magnificent white was awarded a special Silver Medal when exhibited at the great INTERNATIONAL SHOW in New York, March 20, 1915, also Certificate of Merit at the SPRING SHOW of THE PENNSYLVANIA HORTICULTURAL SOCIETY, Philadelphia, March 23, 1915. Black seeded. Oz. \$1.25; lb. \$12.50.

Yarrowa We first exhibited this magnificent Australian variety at the great INTERNATIONAL FLOWER SHOW in New York, March, 1914, where we were awarded a Certificate of Merit by THE AMERICAN SWEET PEA SOCIETY.

From seed sown in early October at FORDHOOK FARMS the plants came into bloom December 20, and bloomed profusely until May. The flowers are exquisitely waved, and when well grown average two and one-half inches in diameter; many of them are duplex or double. They are usually produced in fours on extra-long, strong stems. The color is a bright rose-pink with a clear, creamy base. FLORADALE GROWN SEED exclusively. Lb. \$7.50, 10 lbs. or more at \$7.25 per lb.

The Value of a Guarantee is not in in what is said, but who says it.

For more than forty years we have stated plainly that, where failure is caused by any fault of the seed, we would refund the full price paid. This should convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the great care exercised in their growing, cleaning, and packing. No honest seedsman could assume responsibility for more than the price actually paid by the purchaser.

Floradale Farm produces in addition to tons of Sweet Pea seed the very finest strains of *Alyssum*, *Calendula*, *Candytuft*, *Centaurea Imperialis*, *Cosmos*, *Dahlias*, *Delphiniums*, *Dimorphothea*, *Eschscholtzia*, *Hollyhocks*, *Marigolds*, *Nasturtiums*, *Pelargoniums* (*Geraniums*), *Pentstemons*, *Petunias*, and *Verbenas*.

BURPEE'S FLOWER SEEDS.

ONE-QUARTER pound furnished at pound rates, and, except where otherwise priced, one-quarter ounce at ounce rates, where not less than sixty cents per ounce. Of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates. *Not less than one ounce will be supplied of varieties priced at 15 cts. or less per ounce.*

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at FORDHOOK, FLORADALE, and SUNNY-BROOK FARMS, or by our private growers in America, all are tested thoroughly both for vitality and purity. Those that are imported are obtained only from the best growers in Great Britain, France, Holland, and Italy, whose crops we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the commercial grades commonly sold.

As is well known, we are headquarters for Sweet Peas (see preceding pages), supplying the most critical trade, both at home and abroad, with thousands of pounds annually.

We call your attention especially to our Nasturtium seed, which is grown for us under careful supervision, and is of a quality much superior to the usual strains offered to the trade. See pages 51 and 52.

 Few flowers impart such rich "bits of beauty" to the garden as the different types of NASTURTIIUMS. In addition to their use in the garden and on trellises we would recommend planting the seed freely along fences, hedges, etc., or wherever it is desired to have bright colors in profusion.

Wholesale Price to the Trade, \$4.00 for the Box complete.

Additional Packets

of any of the varieties mentioned above, to fill up the box, will be supplied at the uniform price of

\$2.50 per 100 packets, or

\$2.00 per 100 packets, when 500 packets or more are ordered at one time.

BURPEE'S POPULAR 25-CENT COLLECTIONS OF SWEET PEAS AND OTHER FLOWERS sell quickly and allow the dealer a margin of ten cents on each collection. Our collections for 1918 are better than ever before,—see pages 63 and 64.

BURPEE'S NEW CABINET

OF

VEGETABLE SEEDS.

This is a handsome cabinet, very attractively finished in hardwood and will be an ornament to any store. It stands 40 inches high and is 30 inches broad, divided into 48 compartments. The packets are arranged so that the front of each is shown and they are held in place by a neat little bar across each compartment. The cost of the Cabinet alone is \$7.00, but we will supply the **cabinet complete**, filled with packets of seed (as per list given below) having a retail value of \$50.00 for the net sum of \$25.00.

Burpee's New Vegetable Seed Cabinet contains the following varieties and for the convenience of the purchaser we have given the retail price of each packet:

6 Asparagus,—Barr's Mammoth. (5 cts.)	9 Onion,—Yellow Danvers. (10 cts.)

Garden Plan. Suggestions on Seed Sowing

Mailed to your address for \$1.00

TOM WATSON WATERMELON,—from Photograph taken in Florida.

Watermelon,—“Tom Watson”

In the South there are two classes of Watermelons—first, a thin rind table melon; second, a tough rind shipping melon. Tom Watson belongs to the latter class; and while it does not compare in quality with *Kleckley Sweets*, *Halbert Honey*, *Florida Favorite*, or *Fordhook Early*, it has proved, wherever shipped, to be a good eating melon—in fact, superior to any other of its class. The melons measure eighteen to twenty-four inches long by ten to twelve inches in diameter and weigh from fifty to sixty pounds. The dark-green rind is tough but thin, and easily withstands shipment to far-distant markets. The deep-red flesh extends to within three-quarters of an inch of the rind. The seeds are brown tipped with white.

Wholesale: 75 cts. per lb., ten pounds or more at 70 cts. per lb.

Burpee's “Halbert Honey”

The finest of all Watermelons for the home garden and for local markets! HALBERT HONEY fully equals the *Kleckley Sweets* in superb luscious flavor, and has fruits more even and regular in outline, with a darker, richer

colored skin. The vines are of strong vigorous growth and set fruits very freely—four or five fine large melons are frequently seen clustered closely together. Will ripen choice fruits even in the Northern States if planted in a good location. The

melons average eighteen to twenty inches long and are full or bluntly rounded at both ends. The skin is a dark glossy green. The flesh is a beautiful crimson, the rich coloring and luscious quality extending to the thin rind. A number of planters who sell melons in nearby markets report that the new HALBERT HONEY will outsell any other variety, and frequently brings double the price of other sorts—even when the markets are well supplied with other melons.

Seed grown by ourselves we offer wholesale at 85 cts. per lb., ten pounds or more at 80 cts. per lb.

Kleckley Sweets

which were also first introduced by us, are offered on page 23.

FEB 26 1918

Growing and Saving Tomato Seed at Fordhook.

A FIELD OF BURPEE'S "DWARF-GIANT" TOMATO,—at Fordhook. Men in the distance are picking the ripe fruit while the team is loading for the "washer."

THE "TOMATO WASHER" AT FORDHOOK. Facilities are sufficient to take care of twelve hundred bushels daily. Here we save the seed only, the pulp being hauled on fields and used as a fertilizer.
